

DISTRIBUTOR VALVES

View product: <http://industrial.lukas.com>

For regulating and closing several oil flows.

Turn one oil flow into several individually regulated flows. LUKAS distributor valves deliver practical functionality here - simply by opening and closing:

- 1) controlling the speed of every oil flow
- 2) closing oil flows independently of one another

Need more than 2, 4 or 6 lines? LUKAS can also offer you 8-way valves.

LUKAS

GERMANY'S FINEST HYDRAULICS

LUKAS – the name in hydraulic tools.

High-quality hydraulic tools for industrial applications: LUKAS has developed and produced them in Germany since 1948. Wherever you need to move heavy loads, with our products you have a strong partner at your side. Only LUKAS offers these advantages:

German quality

With few exceptions, LUKAS products are developed and manufactured from start to finish in Germany. That is the only way we can maintain our high standard of quality and monitor our entire production chain. Our highly skilled team works with great attention to detail - and is always a step closer to our customers.

The original

In 1948, LUKAS was the first brand to offer high-quality hydraulic tools for industrial applications. Since then our engineers have always kept a step ahead of developments so we can offer the guaranteed best quality.

Unique customer focus

LUKAS is the only manufacturer to offer you customer-oriented direct sales. Our experienced sales team can give you excellent advice because they understand your needs and can offer you tailored solutions.
