

DC 650-4POWER

The powerful motor pumps of the 650 series supply all of your devices from the LUKAS rerailing system with the necessary power for your project. The use of two- or four-flow radial piston pumps is possible. Depending on requirements, up to four hydraulic cylinders can be supplied with the same flow rates. Maneuver synchronous extension and retraction of identical lifting cylinders using the control table.

Technical Data

Dimensions:	674 x 524 x 783 mm
Operating Pressure:	53 MPa
Flow Capacity, High Pressure:	4 x 0.7 l/min
Flow Capacity, Low Pressure:	4 x 2.6 l/min
Weight:	132 kg
Motor:	2,5 l Diesel
Motor Output:	4.8 kW
Usable Oil Quantity:	40 l
