

## High-performance hand pump ZPH 3 / 8-2 D

The two-stage hand pumps from LUKAS remain capable of acting at all times in an emergency or in an explosive environment and can then quickly extend the telescopic cylinders in manual operation. The high-performance hand pumps are suitable for lifting or moving the load with one or two compact displacement units.

### Technical Data

Dimensions:	922 x 259 x 221 mm
Flow Capacity, High Pressure:	4.2 cm <sup>3</sup>
Flow Capacity, Low Pressure:	10.8 cm <sup>3</sup>
Capacity of Oil Reservoir:	10.5 l
Weight:	21 kg
Usable Oil Quantity:	8 l
