

LX COVER L

TO PROTECT THE RESCUE TEAM

The **LX COVER L** effectively protects the rescue team from injuries at sharp points. The protective covers are slipped onto the cut ends of the vehicle pillars and securely fastened with Velcro. The protective covers are used anywhere on the car body to cover sharp edges, e.g. on fenders or in the roof area. One set can be used to cover the long side of a vehicle and, if necessary, a dangerous roof edge.

Contents:

- 1 large protective blanket
- 2 small protective blanket
- 4 protective bags
- 1 carrying bag
