

THE NEW STANDARD IN THE HIGH PERFORMANCE CLASS

Our shooting stars SP 333 and SP 555 now have a big brother: the hose-bound high-performance spreader SP 777. Its breathtaking spreading force of up to 600 kN, a spreading width of fabulous 813 mm and relentless "Shark Tooth" tips make it the ultimate rescue spreader for vehicle accidents (car, truck, bus, train, tram) or after major incidents such as natural disasters. But that's by no means all: The weight of this powerhouse is just 19.7 kg - a whole 5 kg less than its predecessor model SP 510, making the SP 777 the lightest BS spreader on the market today!

"Shark Tooth" Tips

The necessary grip when spreading when every second counts: The specially developed "Shark Tooth" tips offer maximum bite thanks to their design and the 3-row arrangement of the teeth!

Technical Data

| | |
|------------------------|---------------------|
| Dimensions: | 898 x 309 x 202 mm |
| EN-Classification: | BS-63/813 - 19,7 |
| Weight: | 19,7 kg |
| Squeezing force up to: | 122 kN |
| Series: | Tubular |
| Spreading force: | 63 - 600 kN |
| Spreading distance: | 813 mm |
| Pulling force up to: | 60 kN |
| Pulling distance: | 655 mm |
| Oil requirement: | 385 cm ³ |
