

THE LUKAS COMBI TOOL WITH BUILT-IN PUMP

The SC 250 M combi-tool with built-in hand pump is the inexpensive entry into the rescue. It works completely self-sufficiently - without a power unit, hose or cable. The tool is immediately ready for use, can cut and spread without conversion and is particularly suitable for rescue under explosion hazard (no flying sparks), in impassable terrain, for equipping rescue helicopters or technical assistance.

Technical Data

Dimensions:	850 x 190 x 158 mm
Weight:	11,9 kg
NFPA cutting classes:	A6, B6, C6, D7, E7
Round steel up to:	26 mm
Cutting force up to:	261 kN
Series:	Tubular
Spreading force up to:	405 kN
Spreading distance:	308 mm
