

THE PERFECT COMBINATION OF CUTTING AND SPREADING

The new SC 358 combination tool is the ideal combination of spreader and cutter - and the ideal rescue tool for first response, building or disaster control operations. When spreading, innovative "Shark Tooth Tips" ensure a non-slip "bite" at all times, and when cutting, the tips can be easily removed - so the full length of the blade can be used effectively! Compared to the predecessor model SC 357, this all-rounder scores with more power - in every respect: The tractive force has been increased by 25 %, the maximum cutting force by 27 % and the cutting performance for round steel is now an impressive 35 mm.

"Shark Tooth" Tips

The necessary grip when spreading when every second counts: The specially developed "Shark Tooth" tips offer maximum performance thanks to their design and the 4-row arrangement of the teeth!

Technical Data

Dimensions:	774 x 228 x 172 mm
EN-Classification:	CK 38/368 - 1 - 14,8
EN cutting class:	CK 38/368-I-14,8
EN Cutting capacity:	1I-2J-3I-4J-5J
Weight:	14,8 kg
NFPA cutting classes:	A7, B8, C7, D8, E7
Round steel up to:	35 mm
Cutting force up to:	492 kN
Series:	Tubular
Spreading force:	38 - 1500 kN
Spreading distance:	368 mm
Pulling force up to:	61 kN
Pulling distance:	382 mm
Oil requirement:	110 cm ³
