

THE NEW STANDARD IN THE MOBILE HIGH PERFORMANCE CLASS

With the new battery-operated high-performance spreader SP 777 E2, we have achieved one of our most ambitious goals: to build battery-powered rescue devices that are not only lighter than their hose-bound predecessors, but can also cover almost all application scenarios. Without exaggeration we can therefore say: When it comes to the ratio of spreading force to weight, the SP 777 E2 is unrivalled - worldwide!

"Shark Tooth" Tips

The necessary grip when spreading when every second counts: The specially developed "Shark Tooth" tips offer maximum bite thanks to their design and the 3-row arrangement of the teeth!

Technical Data

| | |
|------------------------|----------------------------|
| Dimensions: | 1080 x 309 x 285 mm |
| EN-Classification: | BS 63/813 - 24,5 |
| Weight: | 23,6 kg |
| Squeezing force up to: | 122 kN |
| Protection class: | IP 54 |
| Series: | e2 |
| Spreading force: | 63 - 600 kN |
| Spreading distance: | 813 mm |
| Pulling force up to: | 60 kN |
| Pulling distance: | 655 mm |
