

**COMPACT, WITH LOTS OF BITE AND FLEXIBILITY**

The SC 358 eWXT is particularly compact and powerful. The combination of spreader and cutter allows absolute flexibility in every application scenario. With a convincing performance and equipped with the "Shark-Tooth-Tips" for a better grip on the material, the SC 358 eWXT bites through every challenge. Like all products of this series, the SC 358 eWXT is a liquid-protected rescue system. Operations in heavy rain, high water or even under water are no problem, because it is waterproof. Matching the series are the 5 Ah or 9 Ah rescue batteries with the longest operating time in the industry.
